Through Morton Industries' partnership with Hike Medical, you have exclusive access to clinical-grade custom insoles, backed by the Hike Fit Guarantee.

Why Hike?

- When your feet aren't supported, your knees absorb extra stress, your hips compensate, and your lower back tightens to pick up the slack. **Custom insoles fix that at the foundation**, so the rest of your body doesn't have to.
- Store-bought insoles are one-size-fits-all. They wear down quickly and stop doing their job. A Hike insole is built from a precise scan with **medical-grade materials, made to last**.
- Getting custom insoles through a specialist means multiple appointments, months of waiting, and costs that can reach **$800+**. Hike delivers the same clinical-grade result in two weeks, exclusively accessible through Morton Industries.

"For years I have been dealing with knee pain. The day I went to work with my custom insoles I felt like a new man! Walking doesn't hurt. I felt like I could actually run! And my knee pain disappeared!"

We hope to serve you next!
Hike Medical

Eligibility to receive Hike Custom Insoles is subject to the agreement between your organization and Hike Medical, including your current employment and/or membership status. Questions? Contact your benefits administrator or support@hikemedical.com.

Frequently Asked Questions

Your Hike Medical custom insole benefit · Morton Industries Employee Benefit

Who is eligible, and what does it cost?

Eligibility to receive Hike Custom Insoles is subject to the agreement between Morton Industries and Hike Medical, including your current employment and/or membership status.

What if my insoles don't fit?

That's where the **Hike Fit Guarantee** comes in. If it's not right, we'll figure out what's wrong and make you a new pair, on us.

Do I need a doctor's visit or prescription?

No. You order entirely from home with no appointments, referrals, or paperwork. All you need is your smartphone and about 5 minutes.

Is my information private during the scan?

Yes. The scan captures only the shape of your feet. No location data is recorded.

How do I place my order?

Visit **hikemedical.com** or scan the QR code on the front of this letter. Create your account, scan your feet in-app, and submit your order.

How long does delivery take?

Your custom insoles are typically delivered to the provided address within approximately **2 weeks** of placing your order.

How do I scan my feet?

Using your smartphone, Hike technology captures the shape of your feet as you glide the phone in an arc around your foot. Scan the QR code to watch the how-to video.
