Health & Wellness Benefits

Sore knees and a tight lower back? It might start at your feet.

Good news: **Morton** benefits cover a free pair of custom insoles from Hike Medical.

A Benefit Spotlight · Hike Medical Member Services

The Story

When your feet aren't supported, your knees absorb extra stress, your hips compensate, and your lower back tightens to pick up the slack. The fatigue follows you the rest of the day. Custom insoles are built to fit your actual foot shape, helping your body move the way it's meant to.

66% improvement in muscle & joint symptoms

53% reported less pain

54% more energy at work

How It Works

1. You're Covered: Morton benefits provide one free pair of custom insoles annually.

2. The Hike Experience: Complete a quick 5-minute phone scan and receive your custom insoles in 2 weeks.

3. Want More? Additional pairs available at exclusive pricing with an extra $15 off for Morton team members.

Your comfort is guaranteed, or Hike will work with you until it's right.

IN THEIR WORDS

Hear what members are saying about their Hike insoles

> Well, I was kind of skeptical at first about scannable foot inserts, but lo and behold, they're the most amazing insoles I've ever encountered. I highly recommend them to anybody who has the opportunity to obtain them.

> For years I have been dealing with knee pain. The day I went to work with my custom insoles, I felt like a new man! Walking didn't hurt. I felt like I could actually run, and my knee pain disappeared!

> I'm on my feet all day walking on concrete and asphalt. I have plantar fasciitis and had bought some store shoe insoles. They helped me, but with these insoles from Hike Medical, I can really feel the difference, and these are custom-made for my feet.
